PROFESSIONAL SUMMARY

Curious and driven aspiring full-stack developer currently completing an in-house internship at Life Choices Academy (April 2026 – Present), after earning a full-stack certification, with additional certified training from Codeeza Bootcamp and FNB App Academy. Skilled in Vue.js, Node.js, and MySQL, with hands-on experience building full-stack applications including an e-commerce platform and mentorship system.

Recently developed a personal portfolio and completed a Generative AI course with WeThinkCode, further strengthening front-end and modern development skills. Focused on building clean, responsive, and user-friendly applications, and eager to contribute to a collaborative development team.

EDUCATION

September 2025- May 2026

Life Choices - Lansdowne, Cape Town

Full-Stack Development Certificate

Gained practical experience in full-stack development, working with JavaScript, Vue.js, Node.js, and MySQL to build responsive web applications. Developed skills in creating RESTful APIs, implementing CRUD functionality, and managing databases. Focused on version control using Git, and deploying applications using platforms such as Vercel and Netlify.

May 2025- August 2025

FNB APP Academy - Online

Full-Stack Development Certificate

Learned core software development concepts including HTML, CSS, JavaScript, and Python, with exposure to Django for back-end development. Developed an understanding of the software development lifecycle, design thinking, and user experience principles, along with basic business and product development concepts.

November 2024- May 2025

Codeeza Bootcamp - Goodwood, Cape Town

Full-Stack Development Certificate

Built a strong foundation in modern web development using JavaScript, TypeScript, React, Next.js, and PostgreSQL. Learned to design and develop responsive user interfaces, integrate front-end with back-end services, and apply best practices in version control and deployment.

2019- 2023

Meridian Pinehurst - Durbanville, Cape Town

National Certificate

SKILLS PROFILE

Languages: JavaScript, TypeScript, HTML, CSS, Python, PHP

Frameworks & Libraries: Vue.js, Node.js, React, Next.js

Databases: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Netlify

Certifications :

- Full-Stack Web Development – Life Choices Academy (2026)
- Full-Stack Web Development – Codeeza Bootcamp (2025)
- Full-Stack Development – FNB App Academy (2025)
- Generative AI – WeThinkCode (2026)
- Introduction to Data Science – Cisco (2026)
- Introduction to Cybersecurity – Cisco (2026)
- Cloud Essentials – IBM (2026)
- Professional Development – ALX (2025)

FULL-STACK DEVELOPMENT PROJECTS

Facel.T – E-Commerce Store

Vue.js, Node.js, MySQL

- Developed a full-stack e-commerce web application for browsing and purchasing products
- Built responsive product pages, shopping cart functionality, and checkout flow
- Implemented CRUD operations for managing products and user interactions
- Designed a clean, user-friendly interface to improve navigation and user experience

Modern Tech – HR / Mentorship System

Vue.js, Node.js, MySQL

- Developed a full-stack mentorship platform with user profiles and messaging features
- Built responsive forms for user input, profile management, and communication
- Implemented front-end and back-end integration for handling user data
- Focused on accessibility and usability across different devices

Oracle APEX Data System

MySQL, Oracle APEX

- Designed and structured data for clear reporting and usability
- Organized and managed database content for improved readability and decision-making
- Created user-friendly data views for non-technical stakeholders

PROFESSIONAL EXPERIENCE

In-House Intern Developer

Life Choices Academy | April 2026 – Present

- Building and refining front-end components using Vue.js
- Developing and improving personal portfolio projects
- Applying responsive design principles for cross-device compatibility
- Collaborating with peers and receiving feedback to improve code quality
- Strengthening understanding of modern development practices and workflows
